

## 1. お茶の木の種類：構造理解

Green tea has a long history in Japan and strong ties with Japanese culture.

Because of this, one might think that green tea comes from a plant unique to Japan.

However, all tea, no matter what its color or taste, comes from the same plant.

Then what causes the differences in taste and color?

They are, in fact, the result of different ways of growing the tea and treating it after it is picked.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
